Following the custom of previous years, a deputy will probably be pland at the office of S. O. Latimer. Port Arthur, and property owners are asked to make renditions there if they can do so.

Deputies will make a house house canvass, but it was pointed ont that when they called, it often happened that members of the family who knew about the location of property would not be at home and confu not make a rendition. Women, however, Laonard stated, are no worse offenders than men, but frequently neither the husband nor wife can give a description of the property

they own. Notices have been mailed out to all Port Arthur property owners by County Tax Assessor Ogden Johnson. This notice states that if any persons required to list property are Sick or altent when the assessor calls, they shall report to the depmy asses ors office.

The ratio also provides that "if any person shall refuse or neglect to make out and render a list of his taxable property, when called upon in persons by the assessor of taxes. or his deputy, or shall fail or re fuse to qualify to the truth of his statement of taxable property, or shall fair or refuse to subscribe to any oath or affirmation required by law, in the rendition of taxable property, he shall be fined in the sum of not less than \$20 or more than \$1,000."

It is believed that it will take the entire month to complete all assess ments in Port Arthur.

New Judge Disqualified in Old Court Appeals

Special to The News.
BEAUMONT, Texas; March 1. The new county judge at law, C. N Ellis of Port Arthur, will be dis qualified in a number of cases due for hearing here—beginning Monday morning, Since they were appealed from his court. He stated that another judge would have to take the ench to pass on them.

There are now nearly 5000 cases otketed in the county court. Some of these date or far back as 1912, "It would at first seen, that these should all be wiped out." Judge Ellis said Saturday, but called attention to the fact, though, that many persons in the cases had grievances that should be settled and he would give all a chance o come to trial.

He admitted that as matters stoo now, or had in the past, appealing a case from a lower court to county court at law practically meant "shelving it." Attorneys would uppeal their cases, feeling that they ould then never come up for trial. ludge Ellis now nims to clear his docket. This will help the lower courts also, for when offenders know ther will have to fight their cases again in county court, the guilty ones

will not appeal them. Judge Ellis denied that he inended to move his family to Beaumont from Port Arthur. He stated that he might be forced to do this later on but that he had no intention of making such a move now.

THE tin ear industry of New York is in the grip of, another scandal. Charges have been made by Tom O'Rourke, a reformed boxing promoter, that Tex Rickard, world's leading boxing impresarie, works hand in hand with the ticket scalpers, thereby creating an unnatural shortage and inflating prices to excessive heights.

O'Rourke charges this condition resulted in many unsold seats for the Dempsey-Firpo fight, while thousands of disappointed fans were turned away from the box office. Rickard's answer is that O'Rourke, having failed miserably as a promoter himself, is trying to make trouble for others. "O'Rourke has a grouch," says Rickard, "I don't work with the scalpers, and I welcome an investigation,"

#### Proud Relic of Other Days

FOR two years now the old full-rugged ship Marion Chilcott has proudly lifted her masts and yards above the Port Arthur harbor. The ship is declared by Port Arthur mariners to be a rarity not only because she is a full-rigged ship, but because she is a tanker, and built of iron, even to her masts and yard-arms.

### Marion Chilcott Is Past's Proud Relic

But as Hamm voided to the world and points south, before Ophelia PROUD old specimen of a fast vanishing type of vessels, the full rigged ship Marion Chileott, anchored in the Port Arthur harbor for over two years, has come to be regarded as one of Port Arthur's show places, like the Memorial library, the schools or the refineries.

Built 12 years ago in Glasglow, Scotland, one of the few iron sailing vessels in the world, the Marion Chilcott is declared by mariners here to liams, skipper of the Marion Chilcott, be a rarity, not only because of her

iron construction, but also because she is one of the very few full-rigged ships ever seen in this port. Relic of Other Days

About the old sailor clings an atmosphere of another generation, the time of the long ago, when the men who sailed before the mast were stordy and gnarled and tanned from heaving on the heavy tackle, feeling the sting of the wind as they labored aloft, and called out of the forecastle all hours of the night to reef the canvas, lashed and whipped by sudden ing over the decks.

#### PORT ARTHUR IS RECOGNIZED BY COMMISSIONERS COURT

A Port Arthur man, C. N. Ellis, is appointed judge of the county court at law to succeed the late Judge Pat Wheat.

In making the appointment, commissioners court side tracks one or more Beaumont eligibles. Appointment of a Port Arthur man came as a surprise, since it was more or less conceded a Beaumont man would be given the office. It goes to show that

Two or three years ago we doubt whether Port Arthur would have been considered. This section of the county had to take pretty much what Beaumont politicoes wanted to dish out to them, and be thankful it was no worse. It is becoming apparent that we are no longer being considered outlanders berelt or initiative and rights. We appreciate the compliment.

Just to keep the record straight, let's repeat this

Port Arthur, in demanding recognition in county afrairs, is not seeking to shake a plum tree.

This for the benefit of several of those Beaumont geatlemen who can never be accused of eye trouble when there is a plum in sight, but who accuse us of mercenary motives because we suggest a change.

There's pretty much of a difference,

#### FAIR FOR PORT ARTHUR

Port Arthur will welcome a fair and exposition as planned by the retail merchants. And it should by all means be started this year.

Expositions or fairs are big assets to any community and the fact that they are not operated for profit commends them to veryone. All the money taken in goes back into the enterprise to enlarge and increase it for the coming year. They grow from small tent attairs into large expositions where bruck and frame buildings take the place of makeshift tents which are necessary

Port Arthur is hig enough to have its own. It has the population to back it up. With the proper sort of management and? exhibits and good wholesome amusement which can be afforded. it is but natural for it to succeed. Between the refineries, the schools, automobile dealers and local merchants it is possible to produce an exposition which will stand comparison with any in-Texas. And fairs have an added advantage which some of us are prone to overlook. And that is the education of our own people as to what we really have in Port Arthur. Handreds of them don't know. It brings us all closer together. It welds community spirit and will in the end teach many that Port Arthur has grown to that size where its citizens can be dependent upon it for everything they need in their daily life. It will?" prove conclusively there is no logical reason for going outside our own city to buy things when the same procle can be found?

# Wooden shoes

"有可以是我的现在分词,我们就是我们的一个人的,我们就是我们的一个人的,我们就是我们的一个人的,我们就是我们的一个人的,我们就是我们的一个人的,我们就是我们的一个人的

HE peasants in America do not wear wooden shoes at all, even in the fields!" writes Abbe Pierre, of Gascony. "No, the peasants there wear shoes of leather, although I should think that sabots would be much more serviceable, not only on the roads, but plowing. . . . And wooden shoes are far less expensive. Ah, that America is an extravagant country!"

Advertisements haven't yet taken the heavy wooden shoes from Gascon feet-nor yet the heavy wooden shoes from Gascon minds. Gascony thinks in the past. America in the future.

Advertisements make the difference. They crisscross improvements in countless directions across the miles. They distribute Fords, furnaces and electric lights so widely that foreigners think you extravagant to enjoy them. They put you in touch with the latest conveniences. They help so many people enjoy those conveniences that their cost to you is small.

You read advertisements to link yourself with the best -to substitute speed for the shambling progress you otherwise would have to make in the lonely wooden shoes of isolation.

Do you read them regularly? Good habits pay.
